Launch 3 becomes a Member of CCA

Launch 3 is proud to announce our membership in the Competitive Carriers Association (CCA). This is a significant move for us as we become part of a hard-working organization that keeps all wireless carriers competitive and allows them to thrive.

In addition to our new membership, Launch 3 will be exhibiting at the 2015 CCA Global Expo on **March 24th-27th in Atlanta, GA**. This trade show brings together carriers, technology experts, network builders, consultants, media, analysts, and industry influencers. Having all these people in one place allows for networking, education and circulating best practices.

Being an active member of CCA provides a variety of different outlets in the wireless industry. CCA serves as a voice for those in the wireless industry to be heard by the FCC, White House, Congress, and the media. CCA helps address issues on all levels from rural to nationwide.
